**Subject:** GP-Eagle Canyon and Hebe

Yesterday, I received a call from Russ Harms with Georgia Pacific about some requirements we have made for the Hebe and Eagle Canyon Mines. He said they will not be able to meet our deadlines for removing fill from the drainage at the Hebe Mine or for marking the disturbed area at Eagle Canyon. However, it should all be done by May 16, and I gave him a verbal approval for the extension.

Could you please include this information in the MTS and the database and print a copy of this message to include in each mine file? (M/015/050 for Eagle Canyon and M/015/072 for Hebe.) Thank you.
